📍 Bucaramanga, Colombia

📄 PROFESSIONAL SUMMARY

Senior Backend .NET Developer with 13 years of experience designing and building enterprise software solutions. Specialized in C#, .NET, SQL Server, software architecture, and high-performance REST API development. In addition to my backend expertise, I have hands-on experience developing web interfaces using Angular, TypeScript, JavaScript, HTML, and CSS, allowing me to contribute across multiple layers of Full Stack solutions when needed. Focused on software quality, problem-solving, and delivering business-driven solutions.
